## ABOUT THE COVER

A COMPETITION of religious art took place in Johannesburg recently, drawing entries from many renowned South African artists. Our picture was taken at *Gallery 101* in Johannesburg when Madame Fernande Haenggi, owner of the gallery, was still sorting the entries. The winning works of art are on display now.

*Gallery 101* is but one of the many art galleries opened in Johannesburg during the last ten years.

They represent a growing interest in art in Southern Africa. This growing interest is also evident from the increased demand for books on art.
